Everything in life is easy (AFTER YOU KNOW HOW)

WORK EXPERIENCE

Municipality of Tirana Tirana, Albania

Internship – Intensive 3-Month Program

01/10/2023 – 01/03/2024

1. **Business or sector:** Public Administration / Transport & Infrastructure
2. Completed an intensive 3-month daily internship in the Transport and Infrastructure department, gaining hands-on experience in municipal operations.
3. Assisted with transport planning, road maintenance, and infrastructure projects under the guidance of senior staff.
4. Gained practical experience using the **CUGGIS application**, involved in mapping, placing points, and managing radar locations on digital maps.
5. Participated in data collection, analysis, and reporting related to traffic management and urban infrastructure planning.
6. Developed familiarity with municipal procedures, teamwork in a professional environment, and application of technical tools for urban transport management.
7. Improved organizational, technical, and analytical skills through direct engagement in day-to-day departmental activities.

News24 Tirana, Albania

Broadcasting Technician / Program Scheduler

18/05/2024 – 18/06/2025

1. **Business or sector:** Media / Television Broadcasting
2. Worked on various technical aspects of television broadcasting, with a focus on program scheduling, advertisement placement, and signal management.
3. Organized and updated programming schedules according to editorial and commercial planning.
4. Integrated and monitored TV advertisements, ensuring timely delivery and uninterrupted broadcast quality.
5. Supervised and configured audio-video signals to maintain high-quality transmission and stable program flow.
6. Collaborated with technical and editorial teams to ensure smooth and professional broadcasting operations.
7. Gained hands-on experience in fast-paced media environments, enhancing technical skills and attention to detail under high-pressure conditions.

Neptun Tirana, Albania

Retail

27/06/2025 – 12/10/2025

1. **Business or sector:** Retail / Digital Products
2. Assisted customers by providing detailed information about digital products and services, ensuring a clear understanding of features and benefits.
3. Developed strong sales skills by guiding customers through product selection and highlighting key advantages to support purchase decisions.

4. Learned effective techniques for presenting products in an attractive and persuasive manner, improving conversion and customer satisfaction.
5. Managed customer inquiries and concerns professionally, maintaining a positive and helpful attitude.
6. Gained experience in retail operations, customer interaction, and the practical application of sales strategies.

Tirana Bank Tirana, Albania

Internship – Digital Banking

25/06/2025 – 25/09/2025

1. **Business or sector:** Banking / Digital Services
2. Completed a 3-month internship in the Digital Banking department, gaining hands-on experience with online banking services.
3. Assisted customers with the **TiBank application**, helping them open online accounts and perform banking functions digitally.
4. Guided clients on how to use the app efficiently, including fund transfers and other online operations, reducing the need for in-branch visits.
5. Provided support and training to customers to make digital banking easier and more accessible, enhancing their user experience.
6. Developed professional skills in customer service, digital tools, and banking operations, while strengthening personal growth and teamwork abilities.
7. Gained a strong interest in banking services and digital finance, aspiring to contribute in a future role within the organization.

PROJECTS

Mini-Portofolio v1

This is a personal / individual project created to demonstrate technical and creative skills in web development. The website functions as an interactive mini-portfolio and has been built entirely from scratch by a single person – meaning that the design, structure, and functionality are all the result of individual work.

Mini-Portofolio v2

This is a personal project created to showcase both technical and creative skills in web development. The website serves as an interactive mini-portfolio, designed and built entirely from scratch by a single developer.

Every aspect — from the concept and design to the structure and functionality — reflects individual effort and attention to detail.

22/08/2025 – 30/11/2025

QR CODE

The creation of a QR code website is a step toward the digital future. This project will serve as a bridge between the physical and virtual worlds, providing users with a simple and seamless experience. The website will be a technological marvel, where each QR code will open new doors to information and personalized services. With a modern and intuitive design, this website will stand as a symbol of elegance and efficiency in the world of technology.
